BRIEF LOCAL MENTION.

The grand ballroom ascension at Elkton Sunday night was a failure. The balloon started up beautifully but it had hardly started before the fire-bell dropped out and the gaudy thing only ascended about a hundred yards and then fell to the ground. It was made by Mr. Howell Gardner and started up by Mr. Alex. Winebaum.

A little five-year-old girl down at Elkton Sunday night was looking at the full moon as it rose and remarked that she could see the man in the moon. She was told that later on in the night the moon would be in eclipse and perfectly dark. "Well," said the little innocent, "The man in the moon will have to light his lantern, won't he?"

The grand ball at Elkton Friday night was a delightful affair. Not a great number went specially for the occasion, but there are plenty of gay young people staying at the spring, boarders and cottagers, to get up a grand ball every night.

A large excursion of negroes came down from Nashville last Sunday. We may look for small-pox right here in our midst, it these excursions are not stopped while the small-pox is there. Excursions would suggest vaccination now.

There was a pleasant lawn party at Buford's Monday night. Several couples went up from Pulaski. The tables were totally destroyed by fire last Sunday morning. The loss is about two thousand dollars and no insurance. One of the proprietors, Mr. T. J. Marks, was in the city on Monday. The fire was set on fire, as it could have originated in no other way. This is the second time within the last two years that the mills have been destroyed.

The girls are reminded that leap year is bounding forward at the rate of twenty-four hours a day. Some of the older ones had better hurry up. Elect the best men you can find to the magistracy's office. It is very important that the county should be composed of intelligent and sober men.
